OFFICE OF THE PRINCIPAL INFORM OFFICER TO THE GOVERNMENT OF MY OLD PUBLIC OFFICES, BANGALORE.

Press Note.

Subject:—No issue of rations to visitors during Dasara

In view of the critical food position in the State due to adverse seasonal conditions all over the State as a result of continued failure of rains for over two months and the prevalence of distress conditions in several parts of the State and the difficulties experienced in meeting even the normal requirements of rationing, it would not be possible for the Food Department to issue any food grains or sugar to persons visiting Mysore for witnessing the Dasara Exhibition opening at Mysore from the 2nd October 1951. Intending visitors to Mysore during the Dasara are therefore cautioned that no rations will be issued to them but that they should provide themselves with their own rations so as to save themselves the inconvenience to which they may be put to for want of rations.

(P. N. No. 159—28-9-1951.)

Press Note.

The rainfall during this year has been considerably less than normal all over the Mysore State. There has been a total failure of rains for over two months in the middle of the cultivating season. Consequently, dry crops all over the State have been generally affected and to a considerable extent, in the Chitaldrug and Kolar Districts. Standing dry crops have withered completely in several parts of the State and the recent rains may not, it is feared, resuscitate them.

Representations have been made from all parts of the State for increased allotments of foodgrains in view of the increased dependence of rural population on Government resources. The Government of India have been apprised of the adverse seasonal conditions in the Mysore State and have been requested that sufficient allotments may be made to Mysore immediately.

Government have also sanctioned Rs. 10 lakhs for starting relief works to afford employment to agricultural classes who are hard hit owing to the failure of standing crops.

(P. N. No. 160—1-10-1951.)

Press Note.

Report of working of the Animal Husbandry Department for the fortnight ended 15th August 1951.

Prevalence of Rinderpest among cattle in Sagar Taluk was reported during the fortnight. Out of 10 animals affected, only one died of the disease. The staff of the Department have protected 47 animals in the infected village and 698 animals in the neighbouring villages. The disease appears to be under control, while the preventive measures are continued to be enforced.

A cow and calf show of artificially bred animals was organised on the premises of the Veterinary Hospital in Bangalore City on 1st August 1951 under the immediate presence of Hon'ble Sri K. M. Munshi, Food and Agricultural Minister to the Government of India, who also distributed medals and certificates to the successful exhibits. Nearly 300 artificially bred calves and their mothers participated in the show. On this occasion an exhibition of the Departmental activities was also arranged on the premises. The show was a phenomenal success and was much appreciated by the public which had gathered in large numbers.
